BMW 4-SERIES 2020-

4-SERIES 2020-

PART NO: BMS MU00 • **CHASSIS CODE:** G22, G23, G26

Fits RWD & AWD (xDrive) models

Introducing the latest step in the Öhlins Racing automotive philosophy – Road & Track by Öhlins.

Our tradition of high-end racing commitments spans more than four decades, and the state-of-the-art solutions and advanced suspension technology we developed for racing are now available for street cars all over the world. The focus of the Road & Track range has been clear from the very beginning – superior road handling without sacrificing comfort in your daily driving. The time for compromise is over.

The new Road & Track suspension for BMW boasts a clever, lightweight design that is mainly comprised of aluminum components. On top of this, the shocks have undergone extensive corrosion tests in accordance with ISO 9227, resulting in a 2-year limited warranty on all of our products – worldwide.

GENERAL FEATURES

- > DFV (Dual Flow Valve)
- > Rebuildable
- > Corrosion salt spray tested (ISO 9227)
- > 2-year limited warranty
- > Springs ordered separately

FRONT FEATURES

- > McPherson strut
